NEW BUSINESS

Ratifications

11-060-9016 - The Graywood Foundation - All residents of the facility are being transitioned out of the facility by March 11, 2011. The day program is closed. The facility will be closed March 25, 2011. George Roth made a motion to not ratify the case acceptance; the motion was properly seconded and carried.

New Complaints

11-060-9014 - Mental Health Provider - The complaint states that a patient was seeking urgent help for a mental health condition. He started having chest pain. The crises worker called an ambulance against the patient's wishes. The patient refused treatment with the ambulance. The police came. The patient told the police, he wanted to leave and they should respect his rights. The police put hand cuffs on the patient and he was transported by ambulance to the hospital without his consent. He now has a large ambulance bill for services that this individual did not want. A release was sent on 1/24/11 to the complainant but it has not been returned. The HRA decided to send another release.

11-060-9015 - Hospital - The complaint alleges that an individual had been brought to the hospital without his consent because he was having chest pain. Allegedly the patient was made to strip naked against his wishes. He was approached about psychiatric admission, not admission for chest pain. The complaint states the patient was coerced to sign a voluntary admission. A family member also tried to convince the patient to sign a voluntary admission. The patient's arm was punctured without his consent to draw blood. He was not violent or doing anything that would provoke hospital staff to involuntarily admit him. The hospital would not let him leave from 10:00 am to 7:00 pm. He was inappropriately restrained and given drugs without his consent. The complaint states that hospital staff withheld food and water and left him naked the whole time he was there. The patient is now responsible for a hospital bill for services he did not request or need. He did find out he had chest pain from several broken ribs. A release was sent on 1/24/11 to the complainant but it has not been returned. The HRA decided to send another release.

11-060-9017 - Behavioral Health Care Hospital - This complaint alleges that a patient was denied access to his medical records and experienced numerous rights violations. The patient requested to be transferred to a different hospital and is awaiting a bed. The coordinator contacted the facility and was advised that there was no one was there by that name. There was no other identifying information about that individual. She also tried contacting him at the facility he was supposed to transfer to and he was not there either. She was unable to send a release or contact the individual. Mary Auth made a motion to not accept; the motion was properly seconded and carried.
